

Acknowledgments

This guide is the product of the cooperative effort of a number of dedicated people and organizations. The idea grew out of genuine concern and the sincere belief of many of these individuals that, considering the dependent position of patients in relation to their health care providers, the promotion of human rights norms in the realm of patient care will secure the human dignity of both patients and health care professionals alike.

Organizations supporting this project include the International Renaissance Foundation (Ukraine), the Law and Health Initiative (LAHI) of the Open Society Institute Public Health Program, and the OSI Human Rights and Governance Grants Program (HRGGP). Much appreciation is owed to the individuals from these organizations who were most directly involved: **Victoria Tymoshevska** and **Maria Vynnytska** (International Renaissance Foundation) for coordination of the project; **Tamar Ezer** and **Jonathan Cohen** (LAHI), who, in addition to fulfilling general oversight and editing responsibilities, coauthored the introduction with **Judith Overall** and also coauthored the international and regional procedures chapter;¹ **Mariana Berbec Rostas** (HRGGP), for updating the regional procedures section; **Paul Silva** (OSI Communications Officer), for his advice and coordination of work on the guide's design; and **Jeanne Criscola**, the designer.

Special thanks is owed to **Iain Byrne, Senior Lawyer** at INTERIGHTS, for writing the chapters on the international and regional frameworks for human rights in patient care and for preparing the glossary with **Judith Overall** and to **Leo Beletsky** for review of the domestic portions of the PG draft.
