

## ACKNOWLEDGMENTS

This guide is the product of the cooperative effort of a number of dedicated people and organizations. The idea grew out of genuine concern and the sincere belief of many of these individuals that, considering the dependent position of patients in relation to their health care providers, the promotion of human rights norms in the realm of patient care will secure the human dignity of both patients and health care professionals alike.

Organizations supporting this project include the International Renaissance Foundation (Ukraine), the Law and Health Initiative (LAHI) of the Open Society Foundations Public Health Program, and the OSF Human Rights and Governance Grants Program (HRGGP). Much appreciation is owed to the individuals from these organizations who were most directly involved<sup>i</sup>: **Victoria Tymoshevska** and **Olena Kucheruk** (International Renaissance Foundation) for coordination of the project; **Tamar Ezer** and **Jonathan Cohen** (LAHI), who, in addition to fulfilling general oversight and editing responsibilities, coauthored the introduction with **Judith Overall** and also coauthored the international and regional procedures chapter; **Mariana Berbec Rostas** (HRGGP), for updating the regional procedures section; **Paul Silva** (OSF Communications Officer), for his advice and coordination of work on the guide's design; and **Jeanne Criscola**, the designer. Special thanks is owed to **Iain Byrne, Senior Lawyer** at INTERIGHTS, for writing the chapters on the international and regional frameworks for human rights in patient care and for preparing the glossary with **Judith Overall** and to **Leo Beletsky** for review of the domestic portions of the PG draft. Thanks are also due to **Sara Abiola** for the language and format editing of the international and regional framework chapters and to **Anna Kryukova** for preparing the atification chart.

Author of the national part of both editions of the guide is Iryna Senyuta (chair of the Department of Medical Law of the Danylo Halytskyi Lviv National Medical University, president of the All-Ukrainian NGO “Foundation of Medical Law and Bioethics of Ukraine”. We express gratitude to Iryna Venedictova, Roman Maydanyk, Petro Rabinovych (reviewers) for their advice and recommendations; **Dmytro Klapaty, Khrystyna Tereshko**, (All-Ukrainian NGO “Foundation of Medical Law and Bioethics of Ukraine, Department of Medical Law of the Danylo Halytskyi Lviv National Medical University) for the updates of the legislations of the national part of the guide; **Lyubov Kyrienko** for literary editing and **Vitaliy Slichnyi** for formatting of the Ukrainian version and **Nataliya Zrazhevska** for translation of the international part of the guide.

Finally, this guide would not exist if it were not for the enthusiasm and personal dedication paid to this project by **Judith Overall**, M.Ed, MSHA, JD, leading consultant of ASPHER.
